# Bionome Quality

The „Bionome“ seal of quality not only makes clear the difference to conventional cosmetics and „natural cosmetics“, but also the particularly high quality standards. The attention and care of the health of skin and body are the focus. With great commitment and consistency, the maximum beautification and protection of the skin is sought by observing dermatological knowledge and ethical responsibility towards people, animals and the environment.

**SkinIdent**<sup>®</sup>  
Die gesunde Hautpflege.

## Why SkinIdent is also just right for your skin

Skin care should be health care so that the natural beauty of every skin can develop perfectly. The prerequisite for this is optimum tolerability and optimum effect at the same time. This is exactly what the two scientists Dr. medical Ernst Walter Henrich and Dr. re. of course Thomas Baumann very successfully researched in the last 28 years. The result is the SkinIdent skin care series, which is unique worldwide.

Compatibility is the most important quality criterion. This is the only way to achieve an optimally positive effect on the skin. Common allergy triggers such as B. Perfume, fragrances and preservatives are therefore not used at SkinIdent. The goal of the scientists is not only a good, but the best possible tolerability. It has been known for a long time that the fashionable distinction between „bad chemistry“ and „good nature“ is no longer helpful. Because natural substances or nature-identical substances such. B. many fragrances, essential oils and preservatives are among the most common allergy triggers. Therefore, the scientists of Dr. Bauman

SkinIdent consistently implemented the findings of dermatological and allergological research, that foreign substances, but not the body's own substances, trigger allergies. For this reason, all products in the SkinIdent line only contain ingredients and ingredients that are identical to the body or skin vitamins used.

SkinIdent is the only skin care line in the world with this level of quality.

The positive effect on and in the skin is the second important quality criterion. This means that all questionable ingredients for which negative effects have been proven or are considered very likely according to the current state of science are consistently not used in SkinIdent. So could e.g. For example, the Japanese University of Kyoto demonstrated in a sensational series of tests that the preservatives contained in most skin care products and used most frequently can massively accelerate skin aging.

On the other hand, there are active ingredients whose positive anti-aging effects have been scientifically proven. Perfect protection, optimal

Regeneration and the best possible moisture content of the skin are achieved by certain vitamins and skin-identical lipids in optimal concentrations. Exactly these findings were consistently implemented in the development of the SkinIdent products.

The result is skin care that is unique in the world. Pure health care - achieved through the consistent implementation of scientific knowledge, the omission of questionable substances and the targeted use of the right, highly effective active ingredients in the optimal concentrations. As Antoine de Saint-Exupéry used to say: "Perfection is not only achieved when there is nothing left to add, but also when there is nothing left to take away."

However, Dr Baumann SkinIdent research is not only committed to the skin and to people's health. The ethical commitments to environmental protection, animal and human rights are managed by Dr. Baumann SkinIdent consistently perceived, as every responsible person should do.

dr Baumann SkinIdent does not use any animal ingredients. Because the use of animal products has a significant impact on the environment, climate and global hunger.

In 2009, the renowned WorldWatch Institute published a study on the immense importance of livestock farming and the consumption of animal products for climate change and the climate catastrophe. According to this, the consumption of meat, milk and eggs is responsible for at least 51% of global human-induced greenhouse gas emissions! The tropical rain forests, which are important for the global climate, are cleared for pasture and for the cultivation of fodder plants. The environmental damage from liquid manure and the water consumption from livestock farming are extreme.

About 1 billion people worldwide suffer from hunger. Every three seconds a child dies from starvation. Every day about 40,000 children starve to death, while about 50% of the world grain crop and about 90% of the world soybean crop is fed to „farm animals“! The suffering of the animals for meat, milk, eggs are documented. Extreme animal cruelty in the keeping and slaughtering of animals is the order of the day worldwide.

You can find more on this topic on the website  
[www.ProVegan.info](http://www.ProVegan.info) by Dr. medical Ernest Walter Henrich.

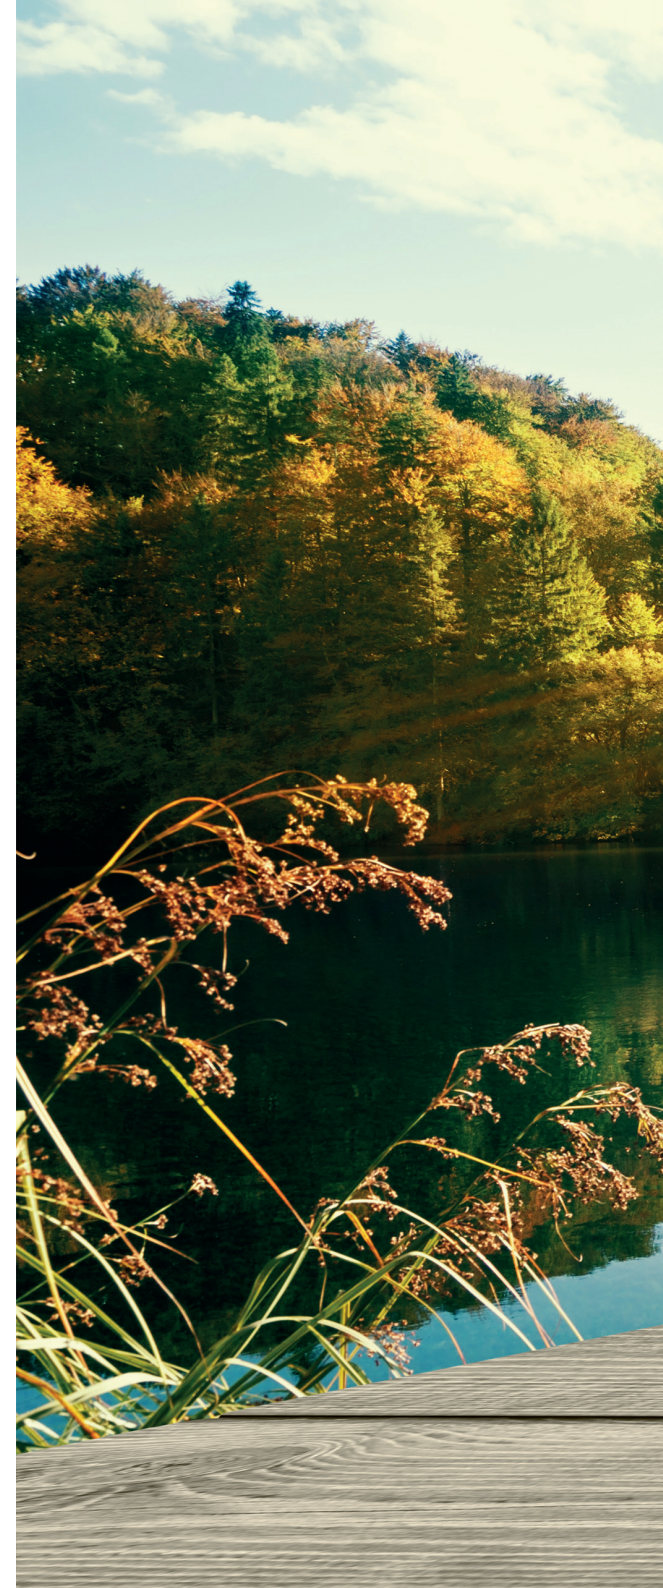

## The quality features

- Optimized effect and tolerability through scientifically based selection of ingredients:
  1. SkinIdent contains only body-identical/skin-identical ingredients and vitamins.
  2. SkinIdent does not contain any substances that were listed in the IVDK (information network dermatological clinics) are named as allergy triggers.
- Without preservatives
- Free from perfume, fragrances and essential oils
- Free from mineral oils
- Free from animal ingredients - vegan
- Avoiding unnecessary packaging waste: without outer packaging

// Perfection is not only achieved  
when there is nothing more to add, but also  
When there's nothing left to take away //

Antoine de Saint-Exupéry

**SkinIdent**<sup>®</sup>  
Die gesunde Hautpflege.

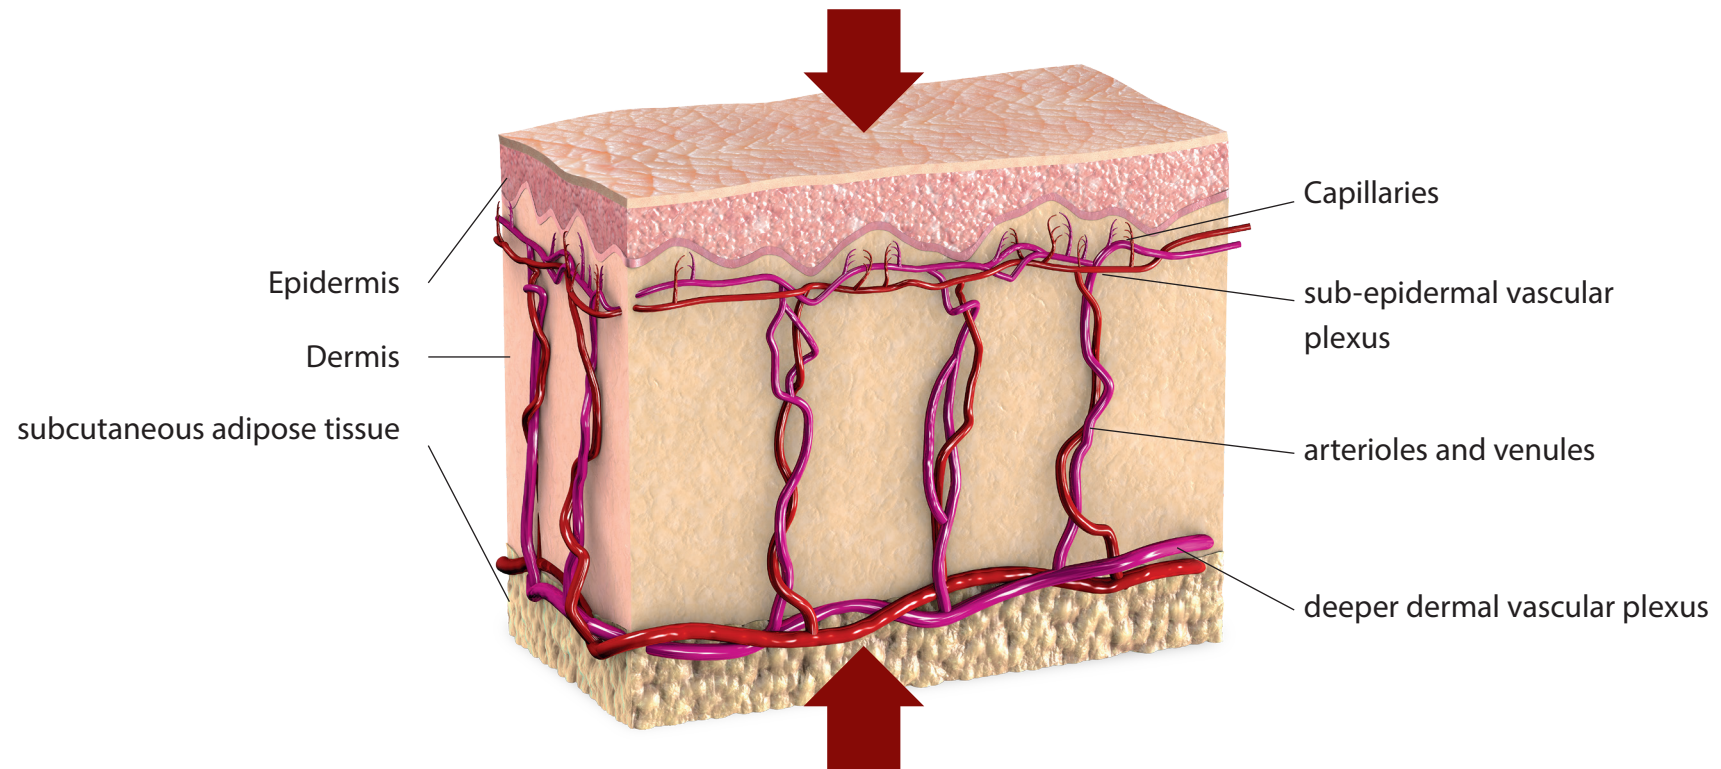

# Beauty Care from the inside

The condition of the skin not only depends on the right external care, but also on hereditary factors and lifestyle, especially diet. With optimal skin care from the outside with SkinIdent, it would be a shame if you didn't increase the positive effects on your skin from the inside with a healthy diet. It would be fatal if you even counteracted the positive effects of SkinIdent through an unhealthy diet. A cross-section of the skin shows you how important a healthy diet is for the skin.

The blood vessels are clearly visible, through which both healthy nutrients and harmful substances can enter the skin. It can be clearly seen that a large part of the skin is dependent on the blood supply and the nutrients supplied. This directly reveals the importance of nutrition for the condition of your skin.

## From the outside: SkinIdent

Healthy anti-aging with skin-identical lipids and vitamins

From the inside: Healthy vegan nutrition without  
meat, milk and eggs

// Gesundheit ist nicht alles,  
aber ohne Gesundheit ist alles nichts. //

Arthur Schopenhauer

**SkinIdent**<sup>®</sup>  
Die gesunde Hautpflege.

# What is „the healthiest diet“?

Very easily. The healthiest is precisely the form of nutrition that has proven to be the healthiest based on worldwide nutritional studies by renowned scientists and universities. The recommendation of the experts for a purely plant-based vegan diet is clear and easy to understand:

The PCRM (“The Physicians Committee for Responsible Medicine”,

Physicians Commission for Responsible Medicine) is a non-profit organization that promotes preventive medicine, conducts clinical research, and raises standards of ethics and efficiency in research

encourages. The PCRM consistently and clearly recommends vegan nutrition as the healthiest and justifies this in a logically understandable way:

“Vegan diets that contain no animal products are even healthier than vegetarian diets. Vegan diets contain no cholesterol and even less fat, saturated fat and calories than vegetarian diets because they contain no dairy and eggs. Scientific research shows that health benefits increase when the amount of nutrition from animal sources in the diet is reduced, making the vegan diet the healthiest overall.”

So it is not surprising that particularly educated and intelligent personalities from science, medicine, politics, acting etc. have decided in favor of a vegan diet in recent years. In 2010, former US President Bill Clinton explained very precisely in a TV interview why he is now eating vegan for health reasons.

You can find more information about this and the advantages of vegan nutrition with lots of tips on the website

[www.ProVegan.info](http://www.ProVegan.info) by Dr. medical Ernest Walter Henrich.

# Gentle Facial Cleansing

The perfect preparation  
for facial care

# Gentle Facial Cleansing

## CLEANSING MILK

This high-quality cleansing milk absorbs both sebum and dirt particles. This cleanses the skin in an extremely mild way. Valuable active substances such as vitamin E, hyaluronic acid and lecithin also have a gently caring character. The Cleansing Milk is then removed again with Facial Tonic. Both SkinIdent products complement each other ideally, so that your skin is perfectly prepared for the subsequent care. Also available in travel size.

Available as a 200 ml bottle / 75 ml bottle (travel size)

## Cleansing Milk Special

The high-quality, rich cleansing milk for the highest demands. The skin is not only cleaned of sebum and dirt particles. Valuable active substances such as natural vitamin E, hyaluronic acid, lecithin and squalene also have a gently caring character.

Available as a 200 ml bottle / 75 ml bottle (travel size)

## Facial tonic

This facial tonic refreshes and cleanses your skin down to the pores. Provitamin B5 and hyaluronic acid give your skin ideal "pre-care" and preparation for the subsequent SkinIdent care products. Facial Tonic is perfectly matched to the CLEANSING MILK. Please always use both products together so that you can use the synergy effects of both preparations to the advantage of your skin. Also available in travel size.

Available as a 200 ml bottle / 75 ml bottle (travel size)

## Facial Tonic Special

This facial tonic refreshes and cleanses your skin down to the pores. Panthenol, proline and the high content of hyaluronic acid give your skin intensive pre-care and the ideal preparation for the subsequent SkinIdent care products. Facial Tonic Special is perfectly matched to the CLEANSING MILK SPECIAL.

Available as a 200 ml bottle / 75 ml bottle (travel size)

## Facial Cleanser

Extremely mild, washing-active substances based on the body's own substances ensure gentle cleansing of the facial skin while at the same time having a cleansing and caring effect thanks to the body's own lipids.

Available as a 200 ml bottle / 75 ml bottle (travel size)

## Facial scrub

This O/W emulsion contains microfine calcium phosphate to gently slough off dead skin cells. It has an immediate cleaning effect with a regenerating long-term effect, supports and intensifies the care effect of the following products.

Available in a 75ml bottle

FACIAL TONIC

CLEANSING MILK

FACIAL CLEANSER

SkinIdent<sup>®</sup>

# Deeply Effective Basic Care

## With multilayered liposomes – the foundation of perfect skin care

A number of scientific studies have been able to demonstrate the excellent effects of liposomes. They increase the moisture content of the skin, channel other skin-friendly active ingredients such as vitamins into the skin and, thanks to their high content of polyunsaturated fatty acids (vitamin F), work against pimples and impure skin. Liposomes are the ingenious skin-friendly multifunctional active ingredients and are therefore used by Dr. Baumann SkinIdent research as essential for effective beauty care.

**Important application notes:**

Please do not use any other cleaning and care products in addition to the SkinIdent products. Due to inadequate ingredients such as B. mineral oils, fragrances, preservatives, etc., the effect and tolerability of SkinIdent can be massively impaired or even completely eliminated.

Due to the high concentration of active ingredients, the SkinIdent products are particularly economical. Therefore, only use about 1/4 of the amount you are used to with other skin care products.

## Deeply Effective Basic Care

### LIPOSOME VITAMIN

Due to the high content of multi-shell liposomes, vitamin E, provitamin B5, vitamin A, vitamin C, biotin as vitamin H, allantoin and hyaluronic acid, the skin is supplied with plenty of moisture, highly effectively protected and at the same time actively regenerated. Liposome Vitamin is ideal for all skin types. It is particularly recommended for pre-aged skin that needs protection from environmental influences, needs to be regenerated and the moisture content increased. Liposome vitamin is also used with great success for pimples and impure skin. Available as a 30 ml dispenser bottle / 10 ml tube

### LIPOSOME VITAMIN SUPER

It is a true blessing for extremely problem skin with dry patches, impaired barrier function, scaling and redness. But it can also be used on normal skin. Skin-friendly vitamins such as natural vitamin E, vitamin A, panthenol (provitamin B5), vitamin B12, vitamin C and biotin (vitamin H) bring the skin back into balance, protect the skin and optimize the moisture content. Due to its very high vitamin content, this highly effective product has a red color. Available as a 30 ml dispenser bottle / 10 ml tube

### LIPOSOME SUPER

The liposomal top preparation from the Dr. Baumann SkinIdent research. It leaves nothing to be desired. All the advantages of the two products Liposome Ceramide and Liposome Vitamin are combined in Liposome Super. Liposome Super has an additional effect through high-quality phytosphingosine, which is of great importance for an intact skin function. Liposome Super is the perfect care product for all skin types and all problem skin. Available as a 30 ml dispenser bottle / 10 ml tube

### LIPOSOME CERAMID

This valuable preparation is characterized in particular by the highly effective multi-shell liposomes as well as urea, ceramides, hyaluronic acid and vitamin E. This strengthens the barrier and protective function of the top layer of skin and greatly increases the moisture content of the skin. Vitamin E effectively protects the skin from environmental influences such as UV radiation. Liposome Ceramide is suitable for all skin types. However, it is particularly recommended for dehydrated skin with a disturbed barrier function of the horny layer. Impaired barrier functions can be caused by improper skin care, environmental influences, natural aging processes, medication, etc. Available as a 30 ml dispenser bottle / 10 ml tube

### LIPOSOME LIGHT

This special preparation is tailored to combination skin, oily and very oily skin, but is also ideal for warm weather and high humidity. Multilayer liposomes, natural vitamin E, vitamin A and hyaluronic acid protect and regenerate the skin. Also ideal for pimples and impure skin. Available as a 30 ml dispenser bottle / 10 ml tube

### LIPOSOME PURE ESSENTIAL

This gel is characterized by particularly high concentrations of the most important skin-identical active ingredients and liposomes. These increase the skin moisture significantly. For dry skin and very dry skin, the subsequent use of a cream is highly recommended. Available as a 30 ml dispenser bottle / 10 ml tube

Application of the SkinIdent liposome preparations

For oily to normal skin, just using one of the liposome products is usually sufficient, especially in warm weather. If you have normal to dry skin, especially in cold weather, you should also care for and pamper your skin after using a liposome preparation with one of the SkinIdent creams, which are presented below as "face care creams".

# Facial Care Creams

## The perfection for perfect skin care

All SkinIdent facial care creams can also be applied to the skin without prior application of the liposome products. However, prior use of one of the SkinIdent liposome preparations is highly recommended due to the fantastic effects of the multishell liposomes and other high quality ingredients. Because liposomes not only increase the moisture content of the skin enormously, but also allow other skin-friendly active ingredients to penetrate. You will feel these advantages on your skin with enthusiasm.

### Important application notes:

Please do not use any other cleaning and care products in addition to the SkinIdent products. Due to inadequate ingredients such as B. mineral oils, fragrances, preservatives, etc., the effect and tolerability of SkinIdent can be massively impaired or even completely eliminated.

Due to the high concentration of active ingredients, the SkinIdent products are particularly economical. Therefore, only use about 1/4 of the amount you are used to with other skin care products.

# Facial Care Creams

## CERAMID CREAM oily and normal skin

A wonderful cream for oily to normal skin. It contains highly effective Same ceramides, urea, lecithin and hyaluronic acid to strengthen the barrier function and protect the skin from drying out. Available as a 30 ml jar / 10 ml tube

## CERAMID CREAM dry skin

This fantastic cream contains the same powerful ceramides, urea, lecithin and hyaluronic acid to strengthen the skin's barrier function and protect it from drying out. However, the fat content is significantly higher, so this cream is particularly suitable for dry skin. Available as a 30 ml jar / 10 ml tube

## VITAMIN CREAM oily and normal skin

In this highly effective cream, vitamins E, A, C, biotin (vitamin H) and provitamin B5 protect and regenerate the skin at the same time. This is effectively supported by lecithin, allantoin and hyaluronic acid. It is ideal for oily to normal skin. Available as a 30 ml jar / 10 ml tube

## VITAMIN CREAM dry skin

Due to the higher fat content, this great cream is perfectly tailored to dry skin that needs effective protection and at the same time needs to be regenerated. Vitamins E, A, C, biotin (vitamin H) do this and provitamin B5 along with hyaluronic acid, allantoin and lecithin. Available as a 30 ml jar / 10 ml tube

## VITAMIN CREAM SUPER

A fantastic product for extremely problem skin with dry patches, impaired barrier function, scaling and redness. But it can also be used on normal skin. Skin-friendly vitamins such as natural vitamin E, vitamin A, panthenol (provitamin B5), vitamin B12, vitamin C and biotin (vitamin H) bring the skin back into balance, protect the skin and optimize the moisture content. Due to its very high vitamin content, this highly effective product has a red color. Available as a 30 ml jar / 10 ml tube

## PURE ESSENTIAL Cream oily and normal skin

Contains particularly high concentrations of the most important skin-identical active ingredients. This ensures an excellent care effect and optimal compatibility with oily and normal skin. Available as a 30 ml jar / 10 ml tube

## PURE ESSENTIAL Cream dry skin

Contains particularly high concentrations of the most important skin-identical active ingredients. This ensures an excellent care effect and optimal compatibility with dry skin. Available as a 30 ml jar / 10 ml tube

Öko-Test 08/04

**VITAMIN CREAM**

Test verdict: very good

**SkinIdent**<sup>®</sup>  
Die gesunde Hautpflege.

# Super Cream – for the highest demands

## SUPER CREAM oily and normal skin

As an outstanding SkinIdent top product, the Super Cream combines the advantages of the Ceramide Cream and the Vitamin Cream in one preparation. Active ingredients such as ceramides and lecithin optimally strengthen the skin's barrier function, so that the moisture content is optimised. The high-quality phytosphingosine is of great importance for an intact skin function and contributes to the special feature of this product. The regenerating and protective vitamins E, A, H and provitamin B5 make oily to normal skin wonderfully supple and attractive. Combined use with Liposome Super is also highly recommended. Available as a 30 ml jar / 10 ml tube

## SUPER CREAM dry skin

The Super Cream for dry skin was also designed as a top SkinIdent product for the highest demands. Due to its higher lipid content, it perfectly cares for dry skin. The SkinIdent Super Cream combines all the outstanding properties of Vitamin Cream and Ceramide Cream, as the valuable active ingredients of both creams (such as vitamins, ceramides, lecithin, etc.) are contained in particularly effective concentrations. The high-quality phytosphingosine, which is of great importance for an intact skin function, harmoniously rounds off the range of effects of this top product. You will be delighted if you apply the Liposome Super before the Super Cream. Your skin will thank you. Available as a 30 ml jar / 10 ml tube

## PURE ESSENTIAL SUPER all skin types

This cream is characterized by the highest concentration of the most important skin-identical active ingredients / lipids and contains no water. As a result, this cream is of particularly high quality and extremely economical, so that you only need a fraction of conventional creams. Ideal for sensitive and dry skin, but also for very dry, even extremely dry skin. The combination with LIPOSOME PURE ESSENTIAL, which is applied first, is perfect. Available as a 30 ml jar / 10 ml tube

# Eye Care

Soft and gentle

# Eye Care

## EYE CARE SUPER

A real power care for sensitive and wrinkle-prone skin around the eyes. The skin's own lipids care for the skin particularly gently. Protective and regenerating vitamins such as vitamin E, A, C, H (biotin) and provitamin B5 (D-panthenol) ensure a visible anti-aging effect. Available as a 15 ml jar / 7 ml tube

## EYE GEL

Ideal fat-free moisturizer for the skin around the eyes. The mild ingredients are ideal for this skin area, because the effect and tolerance could be combined in an optimal way. Available as a 15 ml jar / 7 ml tube

## EYE CREAM

A real treat not only for particularly sensitive and wrinkle-prone areas around the eyes, but for all skin types. The skin around the eyes is protected by natural vitamin E and regenerated by provitamin B5, allantoin and vitamin A. Lecithin, hyaluronic acid and urea ensure an optimized moisture content and a firmer appearance of this sensitive region. Available as a 15 ml jar / 7 ml tube

# Ampoules

The power care for the fast  
visible results

# Ampoules

## VITAMIN E, A, LIPID

Perfect protection through high-dose vitamin E of natural origin, optimal regeneration through vitamin A and excellent strengthening of the barrier function of the uppermost skin layer through skin-identical lipids. A real blessing for every skin, indispensable especially for skin over 35. Available as a 7 ml ampoule

## VITAMIN C, H, D-PANTHENOL

A new dimension in ampoule care. Protective vitamin C together with biotin (vitamin H, important for the normal function of the skin) and the regenerating provitamin D panthenol ensure an incredibly long-lasting effect on your skin. Available as a 7 ml ampoule

## HYALURONIC UREA

Hyaluronic acid and urea are two extremely important moisturizing factors for the skin. Especially in combination with the SkinIdent liposome preparations and masks, the result is an incredibly strong and lasting effect. Available as a 7 ml ampoule

## LECITHIN CERAMIDE

Lecithin and ceramides are two very important factors for the skin's barrier function and overall skin health. The barrier function of the upper skin layer ensures that moisture remains in the skin and that environmental influences are repelled. With this ampoule you strengthen the natural functions of your skin.

# Masks

The perfect complement to facial care

# Masks

## LIPOSOME VITAMIN CERAMID MASK

The multilayered liposomes increase your skin's moisture content, ceramides strengthen the barrier function of the upper layers of the skin, allantoin, provitamin B5, vitamin E, vitamin A and vitamin C protect and regenerate your skin so that it appears noticeably firmer. This high-quality mask gives your skin everything it needs. Treat your skin to this extraordinary mask at regular intervals. Available as a 75 ml bottle / 10 ml tube

## CREAM MASK

High-quality body-identical lipids care for your skin and make it wonderfully supple. Vitamin E protects your skin while provitamin B5 and allantoin regenerate it. Hyaluronic acid optimizes the moisture content. You will be amazed at how soothing and caring this mask is when used regularly. Available as a 75 ml bottle / 10 ml tube

Well-groomed skin is simply more attractive

# Body Care and Body Cleansing

## BODY LOTION

The SkinIdent Body Lotion is suitable for all body skin and should be applied after every shower or bath to protect the skin and provide it with plenty of moisture. Skin-friendly lipids such as lecithin care for the skin together with high-quality hyaluronic acid and urea. The refatting supports the restoration of a physiologically correct pH value in the skin. Provitamin B5, which is so valuable for the skin, and natural vitamin E protect the skin and optimize its moisture content. As a result, you will be able to enjoy wonderfully nourished and attractive skin. Available as a 200 ml bottle / 75 ml bottle (travel size)

## BODY LOTION Vitamin

The SkinIdent Body Lotion Vitamin is particularly suitable for the care of problem skin on the face and body. Especially for scaly skin that is prone to redness and has a disturbed barrier function. The Body Lotion Vitamin should be applied after every shower or bath. Skin-friendly vitamins such as natural vitamin E, vitamin A, panthenol (provitamin B5), vitamin B12, vitamin C and biotin (vitamin H) bring the skin back into balance, protect the skin and optimize the moisture content. A wonderfully well-groomed and attractive skin becomes visible as a result. Due to its very high vitamin content, this highly effective product has a red color. Available as a 200 ml bottle / 75 ml bottle (travel size)

## BODY LOTION SUPER

The SkinIdent Body Lotion Super is the optimal care for all body skin and should be applied after every shower or bath to protect the skin and provide it with plenty of moisture. Skin-friendly lipids such as B. lecithin and squalene care for the skin together with high-quality hyaluronic acid and urea. The provitamin D panthenol, which is so valuable for the skin, natural vitamin E and vitamin A protect and regenerate the skin. Optimally cared for skin will soon become visible. Available as a 200 ml bottle / 75 ml bottle (travel size)

## BODY LOTION VITAMIN SUPER

The SkinIdent Body Lotion Vitamin Super is particularly suitable for the care of problem skin on the face and body. Especially for scaly skin that is prone to redness with a disturbed barrier function and for dry and tense skin. The Body Lotion Vitamin Super should be applied after every shower or bath. High doses of skin-friendly vitamins such as natural vitamin E, vitamin A, panthenol (provitamin B5), vitamin B12, vitamin C and biotin (vitamin H) bring the skin back into balance, protect the skin and optimize the moisture content. A wonderfully well-groomed and attractive skin is visible as a result. Available as a 200 ml bottle / 75 ml bottle (travel size)

## PURE ESSENTIAL BODY LOTION

A very pleasant lotion with particularly high concentrations of the most important skin-identical active ingredients. Ideally suited for very sensitive and dry body skin. Available as a 200 ml bottle / 75 ml bottle (travel size)

# Principles of our actions

For 30 years, the cosmetic chemist Dr. re. nat. Thomas Baumann and doctor and naturopath, Dr. medical Ernst Walter Henrich shared their goal of developing top-class bionomic skin care products.

Right from the start, they worked according to a clear concept that has proven itself: Dr. medical Based on dermatological criteria, Ernst Walter Henrich decides what is ideal for the skin and Dr. re. of course Thomas Baumann implements these specifications in the laboratory in an ingenious way. The result is the bionome top products available today from Dr. Bauman SkinIdent. Die erreichten besonderen bionomen Qualitätsstandards

sKnown are Dr. medical Ernst Walter Henrich and Dr. re. nat. Thomas Baumann also as authors of the specialist book „The evaluation of cosmetic ingredients using the INCI designations“. The work, which has now been published in its 5th edition, offers experts and interested end users useful information for assessing cosmetic products based on their ingredients.

The special bionome quality standards achieved are the result of continuous, systematic and ambitious research into the benefits of the skin and human health.

Supported worldwide by Dr. Baumann SkinIdent has supported many child and

animal welfare projects for years. Also in the future, Dr. Baumann SkinIdent provide financial support for children and/or animal protection projects through state non-profit organizations. Likewise, environmental protection, animal and human rights are promoted through personal commitment and systematic educational work.

Dr. med. Ernst Walter Henrich
